

Edward Moo-Young

Major:
**Information
Systems**

Career after Graduation:
Consulting/IT

My Technical Background

- . I have been around and using computers all my life
- . I have worked on a couple python projects that have really expanding my knowledge of coding and computers.
- . I overall know my way around all types of computers and my favorite in the past to use was a Alienware setup.
- . I don't have a computer setup yet due to the price, but I will eventually get one.
- . All projects I do is usually in my free time or to help my family out with the technical side of the business we have.

Hobbies and Lifestyle

- . I am originally from Las Vegas, NV. I attended Faith Lutheran and went to college for basketball for about 1-2 years.
- . I attended Cypress College in California. I played there for a little until I injured myself (broken arm) and now, I have a crazy scar that makes for an interesting story.
- . I chose UNR after I finished basketball up because I heard they have great educational programs while also being able to stay close to home.
- . I am a huge professional sports fan of both basketball and football as you can tell by my pictures which are my favorite teams.
- . I really enjoying going hiking, playing basketball, and enjoying time with my friends in my free time.
- . My dream at the end of school is to get a job in the consulting/technical field.
